

# PHASE FOUR FUNDING ITAC COVID-19 STIMULUS DEVELOPMENT FUND

September 22, 2020

ITAC is pleased to announce Phase Four funding of its first Intake of the Stimulus Development Fund, allocating 235 businesses over \$4.9 million in grants.

The funding has been made possible by Indigenous Services Canada and is aimed at helping businesses stay afloat during these unprecedented times. ITAC hopes the funds will help Indigenous business owners make up for lost revenue and plan for sustainable growth into 2021. "The Indigenous tourism industry is a driving force of many local economies across Canada. As the industry has been particularly hard hit economically by the COVID-19 pandemic, our government is contributing \$16 million to support Indigenous tourism businesses in need, through the Indigenous Tourism Association of Canada," said Honourable Marc Miller, Minister of Indigenous Services.

The grants are disbursed to Indigenous tourism businesses who are at various stages of their tourism development. The Phase Four recipients are defined as *Doors Open Businesses* – tourism-related services and experiences that are newly available, in start-up and that currently receive customers who are mostly locals and regionals. The next round of applications from Intake 2 are under review and will be announced in October and all applicants will be contacted before the end of October.

*We are proud to support those businesses struggling during the unexpected shutdown of the 2020 summer season, and know this funding for Phase Four will support Indigenous entrepreneurs as they prepare for future tourism seasons.*
